

July 23, 2007

Dear Alec,

We wanted to thank you for your help in selling my father's condominium. As you know our family was going through a difficult time with a lot on our plate to deal with and selling the condominium was not an easy decision for us. Your professionalism, helpful manner and advice were very much appreciated. You ensured that every avenue was considered in how to best present our property and we were pleasantly surprised to see that the property not only sold within a very short period of time but that we also got the price we were planning on. We will certainly be sure to refer our friends to you.

Thanks again.
